Etoile de Hollande

Mrs. P. S. du Pont

Condesa de Sastago

Grenoble

It's easy to have fine Roses. Choose from the following list of the very best varieties. They will bring you enjoyment from early spring to frost. We offer only 2-year, No. 1 plants of the very best grade.

**Each \$1.00, any 5 at 98c each, any 10 at 95c each
No. 1, 2-year, Mountain-grown plants, 4 or more, postpaid**

Ami Quinard. Rich velvety crimson; semi-double. Fragrant blooms in abundance.

Betty Uprichard. Two-tone—soft pink inside, deep coppery orange outside; fragrant.

Briarcliff. Deep pink inside, lighter on outside; large, fragrant, long-lasting.

Caledonia. Pure white, large, very double, long-lasting. Good for cutting.

Condesa de Sastago. Golden buds striped red; fragrant. Blooms freely.

Duquesa de Penaranda. Large, long, pointed buds of apricot-orange; tea fragrance.

Editor McFarland. Brilliant pink, shapely buds; long-lasting. Vigorous; good cut flower.

E. G. Hill. Deep fadeless scarlet; large and fragrant. Vigorous grower; profuse bloomer.

Etoile de Hollande. Large, fragrant, deep velvety red blooms freely produced. Very popular.

Golden Dawn. Large, pointed buds of bright yellow, outside tinged red. Good double flower. Fragrant.

Golden Rapture. Long-lasting, pure yellow, pointed buds on long, strong stems. Fragrant.

Grenoble. Scarlet-crimson, beautifully shaped flowers on long stems.

Joanna Hill. Large, beautiful, long, creamy yellow buds, tinged orange at base. Long stems; fine cut flower.

Kaiserin Auguste Viktoria. Soft white, slightly tinged lemon-yellow. Exquisitely formed flowers.

Margaret McGredy. Large, double, brilliant light scarlet tinged orange-vermilion, becoming old-rose as flowers age.

Mrs. Charles Bell. Shell-pink sport of Radiance; sweetly fragrant. Strong grower; free bloomer.

Mrs. E. P. Thom. Large, well-shaped buds of rich yellow; fragrant. Blooms freely.

Mrs. Pierre S. du Pont. Deep golden yellow; heavy spicy fragrance. Blooms freely.

Pink Dawn. Carmine-pink, long, pointed buds; old-Rose fragrance. Keeps well.

Pink Radiance. Cameo-pink; large, fragrant and prolific all season.

Pres. Herbert Hoover. Two-tone—bright yellow shaded to cerise-pink and flame-scarlet.

Red Radiance. Fine rich red; blooms constantly and abundantly. Easy to grow.

Sensation. An excellent ruby-red with pointed buds on long stems; very fragrant.

Sister Therese. Rich daffodil-yellow, outer petals sometimes marked carmine. One of the most beautiful buds, on long stems.

Snowbird. Pure white, very double flowers and beautiful pointed buds; fragrant.

Sunburst. Orange-copper, edges lighter; Tea-Rose fragrance.

Talisman. Two-tone, shading from deep yellow to bright apricot-red. Free blooming.

The Doctor. Sparkling pink buds, pointed, very large. An excellent pink.

THE POPULAR NEW PATENTED EVERBLOOMING BUSH ROSES

CHARLOTTE ARMSTRONG. Winner 1941 All American Award. Long streamlined carmine buds and glorious open flowers of spectrum-red. Long stems. Patented. **1.50 each.**

COUNTESS VANDAL. Long, pointed, orange-copper buds; flowers are large, double, high-centered, and have a rich fragrance. The blooms are borne on long stems. Patented. **1.35 each.**

CRIMSON GLORY. Deep crimson, glorious in its perfect form, its size and its fragrance. One of the most popular and free blooming. **1.50 each.**

DIAMOND JUBILEE. A.A.R.S. Award for 1948. Double high centered flowers of glowing buff orange. See illustration, front cover. **2.00 each.**

FORTY-NINER. A.A.R.S. Award for 1949. The contrasting colors of this new rose are startling in their brilliance yet blended perfectly. Inside of petals Orient-red, outside chrome yellow. See outside cover illustration. **2.50 each.**

MME. CHIANG KAI-SHEK. Perfectly chiseled petals clasped in long, spiral buds unfurled slowly, culminating in limpid, light clear canary-yellow flowers of perfect proportions. Patented. Winner 1943 All American Rose Selection test. **1.50 each.**

MARY MARGARET McBRIDE. Buds deep salmon pink and the suffusion of yellow becomes gold at base of petals. Plants strong and vigorous. **1.50 each.**

MIRANDY. A huge red rose, very dark and richly perfumed; winner of first place in All-American Rose Selections for 1945. Patented. **1.50 each.**

NOCTURNE. Very strong growing, bushy, upright, and produces many flowers, each with an individual stem. The buds are long and gracefully shaped, dark red with maroon shadings; in cool weather it tends to purple some. Patented. **2.00 each.**

PEACE. Buds golden-yellow, petals edged pink; as the flower opens the gold changes to ivory or alabaster-white, at all times beautiful; large; long-lasting. Patented. Winner of 1946 award, All-American Rose Selection test. **2.00 each.**

ROSE OF FREEDOM. Winner City of Portland Award for 1947. Long stemmed currant red blooms with delightful true rose fragrance. Exceptionally fine; one of the most disease resistant varieties. **1.50 each.**

RUBAIYAT. Long, pointed, attractive buds on tall, strong upright stems, slowly opens into a very large bloom of rose-red to crimson in the center of half-open flower, reverse of petals several shades lighter; free blooming. Patented. Winner of 1947 Award, All-American Rose Selection test. **1.50 each.**

SAN FERNANDO. A magnificent 30 petaled rose of glowing currant-red changing to bright glowing scarlet. A.A.R.S. Award for 1948. **2.00 each.**

TAFFETA. Rich carmine rose in the bud changing to begonia-rose in the open flower. Reverse of petal is yellow. Petals often frilled. A.A.R.S. Award 1948. **2.00 each.**

TEXAS CENTENNIAL. Long pointed buds; velvety vermilion-red aging to carmine-red; large; fragrant; long stems. A sport of Pres. Hoover. Plant patent No. 162. **1.25 each.**

Any four or more roses sent Postpaid at prices listed.
For less, please allow 15c for first plant, 5c for each additional.

Hardy Climbing Roses

CLIMBING ROSE PRICES

1.00 each, 5 or more at 98c each, 10 or more 95c each, except as otherwise quoted. Two-year No. 1, field grown, the BEST grade. Four or more roses postpaid.

CLIMBING AMERICAN BEAUTY. Beautiful buds and large flowers of excellent form on good stems; almost the same rich color and fragrance as Bush American Beauty though not as large because there are so many flowers; the size may be increased by pinching off some of the buds; strong, healthy, vigorous, reaching 10 ft. or more; early Climber and Pillar.

DR. W. VAN FLEET. Delicate flesh-pink, the center deepening into rosy-flesh; its beautiful pointed buds resembling hybrid teas open into semi-double, cupped flowers borne singly on stems of good length for cutting; medium-early to mid-season; blooms over a long period. Seldom bothered by insects and diseases; good growth, attaining 20 ft.; prune moderately. Climber.

MARY WALLACE. One of the best climber and tall pillar roses. Pretty buds opening into charming, semi-double, cupped flowers often 4 in. across; very bright, clear rose-pink, the base of the petals shaded salmon and gold; medium early; blooms very freely; moderately fragrant; resistant to mildew; vigorous, reaching 20 ft.; prune moderately.

PAUL'S SCARLET CLIMBER. Vivid scarlet shaded crimson, intensified by the yellow stamens; flowers of good size, semi-double, in clusters of three to fifteen; a brilliant color well retained; early to mid-season; moderate growth, reaching 10 ft. Climber of moderate height and pillar.

PRIMROSE. The rosette-shaped primrose-yellow blooms hold their color better than many roses of this class; climber; midseason.

SILVER MOON. Creamy buds; beautiful, semi-double, very large white flowers, often 3 to 4 in. across, a cluster of golden stamens in the center; midseason; foliage rich, dark green; blooms very freely, covering the bush; vigorous, reaching 20 to 30 ft.; one of the best.

SPANISH BEAUTY; MME. GREGOIRE STAECHELIN. Long pointed crimson buds opening into large pink blooms, the outside marked ruby-carmine; fragrant; blooms freely; long stems suitable for cutting; early. Pillar and Climber.

Patented Climbers

BLAZE. A hardy vigorous climbing rose similar to Paul's Scarlet. Recurrent bloomer. Flowers scarlet-crimson. **1.50.**

DR. J. H. NICOLAS. Vigorous plant, dark green foliage, double deep rose-pink flowers 5 to 6 inches across. One of the best everblooming climbers. **1.50 each.**

Polyantha Roses

Also called Baby bush roses. They produce clusters of rambler-like flowers on bushes seldom over 18-24 in. high and produce large clusters all summer.

POLYANTHA ROSE PRICES

1.00 each, 5 or more at 98c each, 10 or more 95c each, except as otherwise quoted. Two-year No. 1, field grown, the BEST grade. Four or more roses postpaid

CHATILLON. Bright pink semi-double blooms touched with orange. Enormous clusters of blossoms on vigorous plants of medium height.

POLYANTHAS—continued next page

Polyantha Roses—continued

ELSE POULSEN. A dependable large-flowering Floribunda; bright rose-pink flowers $2\frac{1}{4}$ inches across in large clusters from early summer till fall on vigorous, upright, thrifty plants about 3 feet tall; single to semi-double, 6 to 12 petals; charming.

GLORIA MUNDI. Flaming orange-scarlet very double flowers about 1 inch across in dense clusters all summer; holds its color well even in hot weather; vigorous; a good bedding Baby Rambler or Polyantha.

IDEAL. All summer long its dark scarlet blooms like Ramblers are produced freely in large clusters on plants about 18 in. high; excellent as a dwarf shrub to give constant bloom in the shrubby border, and as a hedge; very showy in large masses or beds as one would use geraniums. Pol.

TRIUMPH D'ORLEANS. Fairly double; brilliant light red flowers with a white center, produced freely all summer long in big compact clusters like Ramblers. Plants low, seldom over 2 ft. Excellent as a dwarf everblooming shrub. Pol.

New Patented Polyanthas

PERMANENT WAVE. Large, semi-double flowers of rosy pink with cerise edges. Petals are waved permanently from bud stage. 1.00 each.

PINOCCHIO. A hardy plant producing an abundance of pointed buds of salmon-flushed gold, opening to miniature roses of soft clear pink in clusters. Fine. 1.25 each.

Shade Trees Beautify the Lawn

A broad open space of well kept lawn is the first essential of good landscape design, the base against which all else is viewed. Yet it is incomplete without trees to shield the house from the direct heat of the sun, and for ornament. Without trees as a background so the topmost branches extend above and break the roof lines, and a few toward the ends to frame the view, the house appears lost in space.

The bark of the European White Birch is chalky white.

**CONTROL ROSE PESTS
and disease this simple way.
No mixing - it's ready to go.****THE SIMPLE WAY
TO CONTROL
GARDEN PESTS**

● As soon as plants leaf out in spring, dust them regularly with EndoPest, Swift's new insecticide and fungicide. A few quick strokes of the exclusive EndoPest dust gun gives you control over most chewing insects, sucking insects and fungus diseases . . . before they get started!

EndoPest

MADE BY SWIFT

MAKERS OF VIGORO**CONTROL INSECTS
AND
PLANT DISEASES
ON ROSES
THIS EASY WAY**

No mixing, comes in a dust gun ready to use. We recommend this product for use on roses, evergreens and other garden plants. EndoPest applicator gun COMPLETE with 10 oz. dust cartridge, 1.00. Refil cartridge, 75c. Postage and packing 10c each additional.

Once established, nothing will increase in value and give such good results with so little attention as shade trees.

When planting remove any unnecessary weak limbs and shorten some others. The central shoot or leader is not pruned unless necessary to make the head more dense. As limbs develop higher remove the lower ones to the height desired. Plant firmly, and water as needed, especially first year.

Birch, European White, Betula alba

A beautiful, graceful tree of peculiar charm; slender branches, the ends drooping with age, bark chalky white; leaves rather small, triangular, bright light green, yellow in autumn.

6 to 8 ft. 2.75 each

Crab, Flowering; Malus

One of the best groups of small trees for ease of growth, profusion and beauty of flowers. For the Midwest they are more satisfactory than the famed Japanese Flowering Cherries, give much the same effect, and are dependable.

Crab, Hopa; Malus Hopa

See color illustration and prices, inside back cover.

Crab, Scheideckeri; Malus Scheideckeri. Loaded in latter April with semi-double flowers $1\frac{1}{4}$ to $1\frac{1}{2}$ in. across, pink on a white ground; delicate fragrance; yellow crabs $\frac{3}{4}$ in. across in latter September-October; upright habit, reaching a height of about 8 ft.; blooms young; very resistant to cedar rust.

3 to 4 ft. 75c each 4 to 5 ft. 1.00 each
5 to 6 ft. 1.50 each

Dogwood, Red Flowering

See inside back cover.

Dogwood, White Flowering

See inside back cover.

Elm, American White; Ulmus americana

Our well known and beautiful Elm, forming a large majestic tree with long spreading limbs, and giving a good though not dense shade. Leaves dark green, in autumn golden yellow. Growth rather rapid; long lived; easily transplanted.

6 to 8 ft. 1.50 each 8 to 10 ft. 1.90 each

SHADE TREES—continued

THE NEW

Elm "Coolshade"

Elm, Coolshade. (Inset shows ordinary Chinese Elm.)

Undoubtedly the most beautiful Elm we have ever seen. It is a most practical all-purpose shade tree. Unlike the American Elm, it does not have large lateral limbs that are dangerous when overhanging the residence. It may be planted close to the house without worry.

IT'S TOUGH—does not break in the wind and under the burden of ice and snow like the ordinary Chinese Elm.

IT'S BEAUTIFUL—forms a compact tree, somewhat resembling the Hard Maple in form.

IT'S HARDY—like all Chinese Elm, it is hardy and drought resistant. Apparently it is not subject to the Dutch Elm disease or Phloem necrosis which affects the American Elm.

IT'S CLEAN—does not shed leaves early and cause an unsightly lawn—holds its leaves late into the fall.

IT'S RAPID IN GROWTH—not quite so rapid as ordinary Chinese Elm, however produces an abundance of deep green foliage affording a complete shade—a "COOLSHADE"—and a truly beautiful shade tree.

WE SINCERELY RECOMMEND THIS AS THE BEST ELM WE HAVE EVER KNOWN. Grows 35 to 50 feet high.

| | |
|------------------------------|-----------------------|
| 5 to 6 ft. sturdy trees..... | 2.50 each; 2 for 4.50 |
| 6 to 8 ft. sturdy trees..... | 3.50 each; 2 for 6.50 |

Elm, Chinese; *Ulmus pumila*

Of very rapid growth, with slender branches and leaves smaller than those of the American Elm. The leaves appear very early in the spring and remain till late fall. Especially adapted for arid regions and for quick results.

| | |
|---|------------------------|

Sugar Maple has a showy autumn foliage.

Maple, Sugar, Rock or Hard; *Acer saccharum*

Unquestionably one of our most beautiful long-lived trees; large, stately, with a dense, symmetrical crown; deeply rooted, allowing grass to grow about the trunk; leaves three to five pointed, deep green, in autumn yellow, orange and scarlet. Transplanting may change the autumn color as it is affected by soil and climatic conditions.

| | |
|--|-------------------------|
| 6 to 8 ft..... | 2.75 each; 25.00 per 10 |
| 8 to 10 ft..... | 3.50 each; 32.50 per 10 |
| All sizes Hard Maple sold for this season. | |

Mimosa Tree; Chinese Silk Tree; *Albizia julibrissin*

This unusual, rapid growing Asiatic tree produces a tropical effect. Its spreading branches form a low, flat-topped crown with tiny, fern-like or feathery foliage and fragrant showy pink Acacia-like flowers with long silky stamens at the tips of branches from mid June to September.

| | |
|-------------------------------|-------------------------|
| Mail size, postpaid. .40 each | 3 to 4 ft..... .85 each |
| 2 to 3 ft..... | .65 each |

Oak, Pin; *Quercus palustris*

One of the most handsome Oaks with its spreading, decidedly horizontal to ascending branches, the lower somewhat drooping with age, sometimes almost to the ground, with a symmetrical pyramidal head, oval with age. Leaves glossy green, in autumn deep scarlet. Excellent for landscape and street.

| | |
|----------------|-----------|
| 6 to 8 ft..... | 2.75 each |
|----------------|-----------|

Peach, Double Flowering Red

See prices and illustration inside back cover.

MISSOURI SALES TAX

Missouri customers please add two per cent sales tax, which we are required to collect and remit to the State Auditor. Price lists are necessarily issued subject to State or Federal regulations that may be hereafter enacted.

**SHADE TREES—continued****Plum, Purple Leaf; Prunus Thundercloud**

The very best purple leaf plum we have yet come across. It holds its bronzy purple color throughout the entire season, not merely in the spring. Upright, strong grower, 25 feet.

| | |
|----------------|-----------|
| 3 to 4 ft..... | 1.35 each |
| 4 to 5 ft..... | 1.75 each |

Lombardy Poplar

Poplar, Lombardy

A picturesque tall, slender tree, columnar in shape with a very formal aspect. Triangular dark green leaves on flat stems, moving freely in the breeze. Very rapid in growth. Used as an accent tree and to create skyline effect. Effective for screen and background plantings.

| | Each | Per 10 |

| | |
|----------------|----------|
| 2 to 3 ft..... | .50 each |
| 3 to 4 ft..... | .60 each |

Weeping Willow

**Hardy Vines . . .
Natures Drapery**

When planting cut the tops back severely, particularly clinging vines such as *Euonymus radicans* and Boston and English Ivy, as it is the new growth which clings. Twining vines must have a support they can twine around. If the soil near the foundation is poor, replace with good soil.

If by parcel post, add 4c each—not less than 15c per pkg.

Bittersweet, American. A high climbing vine; orange-yellow seed pods reveal bright red seed along the branches in autumn; thrives in sun or partial shade; twining.

| | |
|------------|----------|
| 2 yr. | .50 each |
|------------|----------|

Clematis, Jackmani, Large Flowering

Clematis, Jackmani. Easy to grow if provided a trellis, tied securely to the support and provided with a rich, light, well drained soil. Mulch the soil lightly winter and summer. A royal purple variety; one of the most popular.

| | |
|----------------------------|----------|
| Prices above Clematis..... | .90 each |
|----------------------------|----------|

Clematis paniculata; Japanese Clematis. Thousands of fragrant pure white four-petaled starry flowers 1-1½ in. across in September; twining by leaf stems.

| | |
|------------|-----------------------|
| 2 yr. | .75 each; 7.00 per 10 |
|------------|-----------------------|

Honeysuckle, Goldflame. A compact twining vine blooming almost all summer; flowers in clusters, deep rose outside, yellow inside; fragrant after nightfall.

| | |
|------------|----------|
| 2 yr. | .70 each |
|------------|----------|

Honeysuckle, Hall Japanese. Flowers very fragrant, white becoming yellow, in June and at intervals to fall; twining; growth rapid.

| | |
|------------------|----------|
| 2 yr. No. 1..... | .50 each |
| 1 yr. No. 1..... | .40 each |

Honeysuckle, Scarlet Trumpet. Flowers trumpet-shaped, scarlet outside, buff within, 1½-2 in. long in clusters at tips of branches; twining.

| | |
|------------------|-----------------------|
| 2 yr. No. 1..... | .40 each; 3.50 per 10 |
|------------------|-----------------------|

Ivy, Boston. A graceful vine, excellent for smoothly and closely covering a wall of wood, brick or stone. Leaves three lobed, bright green turning orange to scarlet in the fall.

| | |
|-------------------------|----------------------|
| 2 yr. No. 1 plants..... | .75 each; 3 for 2.00 |
|-------------------------|----------------------|

Ivy, English. Evergreen waxy leaves; excellent where persistent foliage is desired. Plant on north of building or in shaded areas. Does not do well in full sun.

| | |
|-------------------------|----------------------|
| 2 yr. No. 1 plants..... | .75 each; 3 for 2.00 |
|-------------------------|----------------------|

Wisteria, American Blue. Clusters of violet-blue flowers, longer than those of the Chinese and not quite so thick on the cluster.

| | |
|-------------------------|-----------|
| 2 yr. No. 1 plants..... | 1.00 each |
|-------------------------|-----------|

Wisteria, Chinese White. 2 year No. 1, 1.00 each.

Althea (Rose of Sharon)

Barberry

Butterfly Bush

Hardy Flowering Shrubs Beautify the Lawn

Mail Sizes, Postpaid

Those quoted as "mail size, postpaid," while not as heavy as the others, are sturdy, well rooted young plants, and will, with reasonable care, give good results. In fact, they are such as we grow on to larger sizes. If others not quoted postpaid are desired by parcel post, postage will be additional.

Five or more of a kind at the 10 rate.

Abelia—See Broadleaf Evergreens

Almond, Double Flowering Pink; *Prunus glandulosa plena*. One of the most showy shrubs in early April, with its many double pink flowers about an inch across, clustered thickly along the slender branches before the leaves are developed; grows 2 to 4 ft. high; prune after blooming.

2 to 3 ft.90 each

Althea; Rose of Sharon; *Hibiscus syriacus*

Its fluted or ruffled flowers, resembling hollyhocks, appear in July and August, often through September, when few other shrubs are in bloom. Of stately upright habit, it is good for specimen plants, backgrounds and tall hedges or screens. Succeeds in any good soil, not excessively dry; tolerates partial but not dense shade; attains 6 to 10 ft., occasionally 15 ft.; prune in early spring. **Double Pink and Double Red.**

| | |
|--------------|-----------------------|
| Mail size | .30 each; 2.80 per 10 |
| 18 to 24 in. | .45 each; 4.00 per 10 |
| 2 to 3 ft. | .60 each; 5.50 per 10 |
| 3 to 4 ft. | .75 each; 7.00 per 10 |

Barberry, Japanese or Thunberg's; *Berberis Thunbergi*

Discovered in 1864, it has become one of the most popular shrubs. Dwarf, dense, compact, spreading habit; graceful spiny branches; excellent for foundation plantings, about doorways, walks, etc., and for massing in front of taller shrubs; makes a good hedge. It grows 2 to 4 ft. high, or may be kept any height desired by pruning in the spring. It thrives in moderately fertile, well drained soil, and endures partial shade. Its small, beautiful bright green leaves, $\frac{3}{8}$ to 1 in. long, appear very early, and color brilliantly in autumn, a mingling of bronze, orange, scarlet and crimson. Tiny greenish-yellow flowers in April; scarlet berries $\frac{3}{8}$ to $\frac{1}{4}$ in. long in October, remaining into late winter or early spring. This variety does not produce wheat rust.

| | |
|--------------|-----------------------|
| 15 to 18 in. | .40 each; 3.50 per 10 |
| 18 to 24 in. | .50 each; 4.50 per 10 |
| 24 to 30 in. | .60 each; 5.50 per 10 |

Barberry, Red-Leaved Japanese or Red Thunberg's *Berberis Thunbergi atropurpurea*

A very showy shrub for lending all-summer color to the border, with its rich, lustrous metallic or bronzy red foliage, if planted in full sun; becomes green in shade; scarlet berries in fall and winter; holds its leaves later in autumn than the green-leaved Japanese. Does not produce wheat rust.

| | |
|--------------|-----------------------|
| Mail size | .35 each; 3.25 per 10 |
| 15 to 18 in. | .60 each; 5.50 per 10 |
| 18 to 24 in. | .75 each; 7.00 per 10 |
| 24 to 30 in. | .90 each; 8.50 per 10 |

Beautybush; *Kolkwitzia amabilis*

Discovered in China in the 90's, it is now one of the most popular May flowering shrubs, when for a distance of $1\frac{1}{2}$ to $2\frac{1}{2}$ ft. its arching sprays are a mass of clustered, trumpet-

shaped flowers like Weigelas but more dainty, $\frac{3}{4}$ to 1 in. long, pink outside, mottled with orange within. The dark green foliage is dainty, up to $2\frac{1}{2}$ in. long. It attains a height of 4 to 6 ft.; succeeds with sun half the day. Prune after blooming. While it does not usually bloom for a year or two after planting, it will, when established, reward you abundantly.

| | | | |
|--------------|----------|--------------|----------|
| 15 to 18 in. | .50 each | 18 to 24 in. | .60 each |
| 2 to 3 ft. | | | .75 each |

Butterfly Bush; Summer Lilac; *Buddleia*

Perhaps no shrub blooms more profusely and over a longer period, beginning in early July, the first summer, and continuing until frost. The dense panicles, sometimes 10 in. or more long, flowers resembling lilacs, attract the butterflies. Grows 3 to 7 ft. high; may be kept lower by cutting the flowers off as they fade. Succeeds with sun half the day. Mound with soil during winter the same as you protect everblooming roses. Prune to the ground each spring.

Butterfly Bush, Charming; *Buddleia Charming*

Lavender tinged pink, the pink more noticeable in sun.

| | |
|---------------|----------|
| 1 year No. 1. | .50 each |
| 2 year No. 1. | .75 each |

Butterfly Bush, Dubonnet; *Buddleia Dubonnet*

Rich, carmine-purple similar to the color of the French wine Dubonnet, the shade popular in dress fabrics.

| | |
|---------------|----------|
| 1 year No. 1. | .50 each |
| 2 year No. 1. | .75 each |

Butterfly Bush, Royal Red; *Buddleia Royal Red*

A truly royal color. Its immense trusses of brilliant flowers withstand summer's heat and bloom over a long period. The plant is sturdy with well colored foliage. A most important addition to any garden. (Patented.)

| | |

The Sarcoxie Nurseries ♦ Diamond Jubilee ♦

This year we celebrate our Diamond Jubilee, to mark our 75th Anniversary devoted to specialized horticulture.

Our experience and modern facilities for growing and storing plants enables us to furnish you the highest quality plant material at moderate prices.

Cranberry Bush

Grape Myrtle

Deutzia

Cotoneaster acutifolia; Peking Cotoneaster

An upright, yet somewhat spreading shrub with graceful spreading branches reaching 5 to 6 ft. Leaves 1 to 2 in. long, dark, glossy green, in autumn purplish. Small whitish-pink five-petaled flowers in nodding clusters of two to five, followed by conspicuous black berries $\frac{1}{2}$ in. long.

2 to 3 ft.90 each

Cranberry Bush; Viburnum opulus

The parent of the Common Snowball, and like it in growth, but the white flowers are in flat clusters in May. The center flowers, which produce the berries, are small, with an outer ring of showy flowers like the individual flowers of the Snowball. The bright scarlet cranberry-like fruits, $\frac{3}{8}$ in. long, color in early August, remaining well into winter when not eaten by the birds. Endures partial shade; attains 8 to 12 ft.; prune, if necessary, after blooming.

18 to 24 in.65 each

Grape Myrtle; Lagerstroemia indica

Its clusters of flowers $\frac{3}{4}$ to $1\frac{1}{4}$ in. across, the petals crinkled like crepe, are borne in profusion throughout latter summer in clusters 3 to 8 in. long. Foliage up to $2\frac{1}{2}$ in. long, lustrous dark green. As important in the South as Lilacs in the North. May be grown here if mounded in winter like you protect everblooming roses. If the top winter injures, cut back to sound wood and the new growth will bloom first summer.

Crape Myrtle is rather difficult to transplant. Often it remains alive but does not break into growth for a long time. Soil banked about it, a flower pot or pail inverted over it, often causes more rapid budding, due to moisture about the tops. With usual nursery care we have little trouble. As success depends largely on care given, we will guarantee good condition when shipped but cannot assure growth. **Color, Watermelon Red.**

18 to 24 in.75 each

Forsythia

Desmodium, Purple; Purple Bush Clover; Desmodium penduliflorum; Lespedeza formosa; Desmodium Sieboldi

In late August and September, when few other shrubs are blooming, Desmodium is very showy, its branches somewhat arched with drooping clusters 3 to 9 in. long (sometimes extending 2 ft. along the branches) of rosy-purple flowers nearly $\frac{1}{2}$ in. long, like tiny peas. Its delicate-textured foliage consists of three rather small medium deep green leaflets. Grows 3 to 4 ft. high, the clump throwing up more shoots each spring; freezes back in winter; should be pruned to the ground each spring.

2 year No. 1.60 each

Desmodium, White; Desmodium japonicum; Lespedeza japonica

Similar to the purple form except the flowers are white and blooms a little later; beautiful in contrast with the purple.

2 year No. 1.60 each

Deutzia Pride of Rochester

Covered in latter May with dainty, double, tassel-like flowers in a setting of deep green foliage in upright clusters 4 to 6 in. long, white, outer petals tinted rose; upright, vigorous, growing 6 to 8 ft. high, in any well drained garden soil; prune after blooming.

2 to 3 ft.60 each; 5.50 per 10
3 to 4 ft.75 each; 7.00 per 10

Dogwood, Bailey's; Cornus Baileyi

After the leaves have fallen this shrub lights up the shrubbery border with its dark red branches, more intense with the approach of winter. Flat clusters of small fuzzy, cream-white flowers in spring; grows 6 to 10 ft. high. Pruning to the ground early each spring will reduce the height and give more young branches which are of better color. Succeeds in well drained soil, in sun or partial shade.

18 to 24 in.40 each 2 to 3 ft.60 each

Forsythia; Golden Bell

One of the first shrubs to let us know spring is here, with its abundance of four-petaled, somewhat bell-shaped golden flowers often 1 in. long, swinging in small clusters all along the leafless branches in March, sometimes during mild February days, occasionally extending into April. Very free from insects and diseases. The leaves remain green till late fall. Prune soon after blooming, to keep the bush compact and the height desired. Suitable for partial but not dense shade; of easy culture in any well drained garden soil.

Forsythia primulina; Primrose Forsythia. Primrose-yellow, blooming a little later than spectabilis.

Forsythia spectabilis. One of the best upright Forsythias; pure, rich yellow flowers, sometimes $1\frac{1}{2}$ in. across; better color and blooms more freely than most varieties.

Mail size30 each; 2.80 per 10
18 to 24 in.45 each; 4.00 per 10
2 to 3 ft.60 each; 5.50 per 10

Honeysuckle, Bush; *Lonicera*

Those only acquainted with climbing honeysuckle should plant some of the bush form for their beauty of foliage, profusion of flowers in pairs at the base of the leaves in latter April, and abundant, brilliant berries about the size of a currant, often even more showy than the flowers, in June, when we have few ornamental berries. An excellent specimen shrub and good for screen plantings, because compact in growth, with neat foliage retained late. Of easy culture; suitable for partial shade. Should have sufficient space to develop naturally. Prune if necessary after blooming which, however, reduces the number of berries that year. Most varieties grow 6 to 8 ft. high.

Fragrantissima; Winter Honeysuckle. Its very early small flowers are so numerous and fragrant they scent the whole garden; buds pink, opening creamy-white to blush. Foliage half evergreen. Blooms in early March, sometimes February. The branches are easily forced into bloom in the house in latter January. Seldom fruits.

Red Tatarian, tatarica rubra. A graceful shrub that bears a profusion of deep pink flowers in June which shows up well against the foliage. These are followed by an abundance of bright red berries. It flourishes in partial shade. 2 to 3 ft. only.

White Bush. Flowers white, excellent for contrast with the colored varieties; red berries in summer.

Honeysuckle, Zabeli—NEW DEEP RED

A marvelous new improvement producing a well formed bush and an abundance of beautiful red flowers followed with brilliant red fruit. 6 to 7 ft. Excellent.

| | |
|------------------|----------------------|
| 18 to 24 in..... | .60 each; 1.75 per 3 |
| 2 to 3 ft..... | .75 each; 2.00 per 3 |

Hydrangea Hills of Snow

Kerria—Globe Flower

Hydrangea Hills of Snow. Well named for its profusion of snow-white flowers in large, somewhat globular clusters, beginning in June; suitable for full sun and partial shade.
2 year size, 18 to 24 in.... .80 each; 3 for 2.25; 7.00 per 10

Hydrangea paniculata grandiflora; Peegee

It produces the largest flower heads and is one of the most showy shrubs of August. The large, compact, cone-shaped clusters are white, becoming pale pink with age, the pink varying with the season, finally bronzy. Grows 5 to 7 ft. high. Pruning in early spring, removing weak shoots and severely cutting back the stronger, increases the size of the flower clusters; should have a sunny situation, fertile soil and plenty of water while blooming.

| | |

Hydrangea paniculata grandiflora (Pee Gee)

Kerria Japonica—Globe Flower. Attractive shrub, native of Japan with slender green branches and showy double yellow flowers. Will grow in any well drained soil and can be used in partial shade.

| | |
|----------------|-----------|
| 2 to 3 ft..... | 1.00 each |
|----------------|-----------|

Lilac—See inside back cover.

Mock Orange, Sweet Scented; *Philadelphus coronarius*

The name is almost a description. Creamy-white four-petaled fragrant flowers 1 to 1¼ in. across in clusters along the branches in May make it a cloud of white. Somewhat spreading, symmetrical habit; succeeds in sun or shaded part of the day; excellent for specimen plants, screens or backgrounds; usually grows 5 to 6 ft. high, sometimes higher. Prune after blooming, removing old and weak branches to the ground.

| | |
|------------------|-----------------------|
| Mail size | .30 each; 2.80 per 10 |
| 18 to 24 in..... | .45 each; 4.00 per 10 |
| 2 to 3 ft..... | .60 each; 5.50 per 10 |
| 3 to 4 ft..... | .75 each; 7.00 per 10 |

Mock Orange, Virginal; *Philadelphus virginialis*

The delightfully fragrant pure white waxy flowers are semi-double, occasionally single, large, 1½ to 2½ in. across, in clusters along the branches in May and intermittently during summer. Perhaps the most beautiful Mock Orange, though the bush is not as symmetrical as coronarius; moderately tall.

| | |
|------------------|-----------------------|
| Mail size | .35 each; 3.40 per 10 |
| 18 to 24 in..... | .75 each; 7.00 per 10 |
| 2 to 3 ft..... | .90 each; 8.50 per 10 |
| 3 to 4 ft..... | 1.15 each |

Mock Orange, Minnesota Snowflake. NEW.

A new patented variety with double pure white flowers. Very fragrant and in large snow-flake clusters. Vigorous and hardy. Excellent.

| | |
|------------------|-----------|
| 18 to 24 in..... | 1.25 each |
| 2 to 3 ft..... | 1.50 each |

Olive, Russian; *Eleagnus angustifolia*

Usually grown as a tall shrub, its height regulated by pruning. Flowers tiny, 4-lobed, narrow bell-shaped, silvery-green outside, lemon colored within; fragrant; fruit olive-shaped $\frac{1}{2}$ in. long, yellow with silvery scales; foliage 2 to 3 in. long, light grayish-green above, silvery beneath.

2 to 3 ft.70 each

Privet Hedge—See page 15.**Privet, Chinese**

Of bushy, spreading habit, excellent as a dwarf shrub and for hedges as the small, neat, dark green foliage is retained well toward spring; very fragrant, white flowers like tiny lilacs followed by blue berries.

2 to 3 ft., bushy......50 each; 4.50 per 10
3 to 4 ft., bushy......60 each; 5.50 per 10

Privet, Regel; *Ligustrum ibota* Regelianum

Excellent for its foliage effect. A rather low shrub with almost horizontal branches, drooping at the tips; foliage dark green, arranged horizontally. Flowers like tiny white lilacs; in latter May; blue-black berries. A good foundation plant.

18 to 24 in......50 each 24 to 30 in......60 each

Quince, Japan or Flowering; *Cydonia japonica*

Beautiful in latter March, sometimes February, just as the leaves begin to unfold with its five-petaled flowers 1 to $1\frac{1}{2}$ in. across in clusters of two to six, a fiery scarlet so brilliant it is also called Burning Bush. Its dense foliage is glossy dark green, in autumn bronzy-red. Fruit yellowish-green, $1\frac{1}{2}$ to 2 in. across, not edible, its fragrance retained when dried. Usual height 3 to 6 ft.; branches thorny; young plants somewhat irregular in growth becoming attractive with age. Plant in sun. Prune after blooming. See illustration next page.

12 to 18 in......45 each; 4.00 per 10
18 to 24 in......60 each; 5.50 per 10
2 to 3 ft......75 each; 7.00 per 10

Snowball, Common; *Viburnum opulus* sterile

The name brings to mind the old bush in grandmother's garden, laden with snow-white flowers in globular clusters 3 to 4 in. across in early May. Leaves maple-like, 2 to 4 in. long, bronzy-red in autumn. Grows 6 to 8 ft. high. Succeeds in sun or partial shade. Prune after blooming. See illustration below.

18 to 24 in......75 each 2 to 3 ft......1.00 each

Snowball

THE SPIREAS

Justly popular for their hardiness, thriftiness, profusion of bloom, graceful habit, neat foliage, and general freedom from serious insects and diseases. The early blooming Spireas, after the bush attains good size, should have some old wood removed to the ground each year immediately after blooming. Prune late blooms in early spring, before growth starts. When neglected for years it may be necessary to prune almost the entire plant to the ground in early spring. They succeed in any moderately moist lawn soil of average fertility.

Spirea Anthony Waterer

Small five-petaled rosy-crimson flowers in dense flat clusters cover the 3 ft. bush in early June. If the flowers are cut off as they fade it blooms at intervals until fall. Dwarf, compact, upright habit; rather fine textured deep green foliage. Excellent for foundation and border plantings, and in front of taller shrubs. Succeeds with sun half the day. Prune part of the old wood out each spring.

12 to 15 in......50 each; 4.50 per 10
15 to 18 in......60 each; 5.50 per 10
18 to 24 in......75 each; 7.00 per 10

Spirea Froebeli; Frobel Spirea

Similar to Anthony Waterer but more vigorous and a little taller, attaining 4 ft.; broader, darker leaves, in autumn overlaid with bronzy-red. Prune same as Anthony Waterer. See illustration next page.

Mail size30 each; 2.80 per 10
12 to 15 in......35 each; 3.00 per 10
15 to 18 in......40 each; 4.00 per 10
18 to 24 in......50 each; 4.50 per 10
24 to 30 in......60 each; 5.50 per 10

Spirea Golden; *Spirea opulifolia* aurea; *Physocarpus aureus*

Perhaps unsurpassed for golden foliage color in early spring, becoming bronze-yellow in early summer, green in latter summer, furnishing a variety of colors during the season. Flowers inconspicuous, white, five-petaled, $\frac{3}{8}$ in. across in flat clusters 1 to 2 in. across in early May. Grows 5 to 7 ft. high. A sunny situation with pruning each spring gives better spring color.

Mail size25 each; 2.00 per 10
18 to 24 in......50 each; 4.50 per 10
2 to 3 ft......75 each; 7.00 per 10
3 to 4 ft......85 each; 8.00 per 10

Spirea Thunbergi; Thunberg's Spirea

Its graceful spreading and arching branches 3 to 5 ft. high are clothed with many small, pure white five-petaled flowers $\frac{3}{8}$ in. across in clusters of three to six in March, before the leaves are developed; leaves very narrow, 1 to $1\frac{3}{4}$ in. long, light green. The fine feathery foliage makes Thunbergi suitable for nearby plantings where shrubs of coarse texture would be out of place. Better if pruned some each year after blooming.

18 to 24 in......50 each; 4.50 per 10
2 to 3 ft......70 each; 6.50 per 10

Spirea Van Houttei, a fountain of white in May.

Spirea Van Houttei; Van Houtte's Bridal Wreath

A fountain of white in late April and May, its arching branches covered with clusters of small five-petaled flowers one-third in. across; the graceful drooping habit and neat dense foliage, $\frac{3}{4}$ to $1\frac{3}{4}$ in. long, make it attractive throughout the season; excellent for grouping, as a background for lower shrubs, a foreground for taller shrubs, a screen, or as a specimen plant. Each spring, after blooming, prune some of the old canes to the ground. Grows 6 to 7 ft. high.

Mail size, postpaid......30 each; 2.80 per 10
18 to 24 in......45 each; 4.00 per 10
2 to 3 ft......55 each; 5.00 per 10
3 to 4 ft......65 each; 6.00 per 10

Spirea Froebeli—Red Summer Spirea

Tamarix; Tamarisk

While grown mainly for their delicate feathery foliage, in general effect like Asparagus, the tiny flowers make the bush a cloud of pink. Prune severely each spring to maintain a continuous supply of new wood and to keep the plant bushy and the height desired. It attains 4 to 15 ft. according to variety. Plant lower growing shrubs in front of the taller Tamarix.

Tamarix hispida. Early; tiny bright pink flowers in clusters 1 in. long for a distance along last season's slender, dark purple branches; tall. Prune after blooming.

2 to 3 ft..... .40 each 3 to 4 ft..... .50 each

Japan Quince

Viburnum Sieboldi; shiny leaf viburnum

A vigorous, hardy shrub with shiny foliage that remains on the plant during the winter. Produces large clusters of white flowers followed by pink berries which change to bluish black. Excellent for specimen or background plantings. 8 to 10 ft.

18 to 24 in..... .75 each

Vitex macrophylla; New Chaste Tree

Its long spikes of small, rather deep lavender blue flowers at the ends of the branches in July and at intervals till fall, somewhat resemble those of the Butterfly Bush. It makes a distinctive, rather large shrub of graceful, open airy habit, with five-fingered leaves, dark green above, grayish beneath, with an aromatic pungent odor. Not yet in general use, but desirable in the shrub border for contrast.

18 to 24 in..... .40 each 2 to 3 ft..... .60 each
3 to 4 ft..... .80 each

Weigela; Diervilla

Very showy in May when covered with its profusion of trumpet-shaped flowers 1½ in. long in clusters along the branches. Most kinds make a bush 6 to 8 ft. high and prefer full sun. Best in groups or for corners where they may be given plenty of room. Prune after blooming.

Weigela, Bristol Ruby. NEW.

Plant patent No. 492. This new outstanding Weigela is hardier and more vigorous than any of the red Weigelas. Soft ruby red to crimson. Grows 6 to 7 feet. Sun or partial shade.

2 to 3 ft.....\$1.50 each

Weigela Eva Rathke. Brilliant carmine-red flowers in May and to a limited extent at intervals during summer; grows about 4 ft. high; succeeds in partial shade. Prune after blooming, otherwise the bush is inclined to become straggly.

18 to 24 in..... .80 each

Weigela Rosea. Distinctly red buds opening rose-pink outside, lighter within; blooms freely.

18 to 24 in..... .60 each
2 to 3 ft..... .75 each

Weigela

Willow, Pussy; Salix Lemoinei

Its flowers are furry catkins and appear in early spring before the leaves. They are often used as cut flowers either alone or with other flowers. When used in the shrubbery border it should be planted to the rear as it gets quite large.

2 to 3 ft..... .50 each; 4.50 per 10
3 to 4 ft..... .60 each; 5.50 per 10

SARCOXIE NURSERIES

They Are Specimens Everyone

Evergreens Shipped by Express or Truck Line
Are Not Prepaid

Evergreens Are Easy to Plant

Grown with plenty of room, our evergreens are compact, well developed trees of their size and variety. They have been transplanted and root pruned to develop a good root system. They are liberally graded and, except mail sizes, are dug with a ball of earth wrapped in burlap, termed "balled and burlapped" or B&B. Planting Instructions furnished.

Berckman's
Golden Arborvitae

Globe Arborvitae is naturally globular in form.

Juniper, Irish

Arborvitae, American Pyramidal; *Thuja occidentalis pyramidalis*

Compact and narrowly pyramidal, with age almost a perfect column, its short branches densely covered with deep green foliage. Fairly rapid growth, reaching 18 to 20 ft., usually not over 2 ft. in diameter at the base. Valuable for formal plantings, for accent, corners, in front of pillars, or in the center background of groups. Naturally pyramidal; not artificially produced by shearing. Not suitable for dense shade.

18 to 24 in. B&B... 2.25 each 3 to 4 ft. B&B... 4.50 each
2 1/2 to 3 ft. B&B... 3.50 each

Arborvitae, Berckman's; *Thuja orientalis aurea nano*

A perfect gem; superb, somewhat ovate shape; compact, dwarf habit, slowly growing about 7 ft. high; new spring and early summer growth gold suffused with green, in winter, green to bronze-green; valuable for cemetery, lawn and landscape; admired by all lovers of formal evergreens.

18 to 24 in. B&B... 3.50 each
2 to 2 1/2 ft. B&B... 5.00 each

Arborvitae, Excelsa; *Thuja orientalis excelsa*

Orientalis type; deep green foliage; flattened upright branches; somewhat oval form, attaining about 7 to 8 ft.
3 to 3 1/2 ft. B&B... 5.00 each

Arborvitae, Woodward Globe

A compact form, naturally globular in outline, growing 3-3 1/2 ft. high

12 to 15 in. B&B... 1.50 each
15 to 18 in. B&B... 2.00 each

Junipers

Juniper, Blue or Silver; *Juniperus virginiana glauca*

One of the most popular blue Junipers; young growth silvery, becoming beautiful bluish-green, affording color contrast in the landscape; fairly rapid growth; broadly conical long slender branches producing a graceful effect; grows 20 ft. high; may be kept lower and dense by pruning.
3 1/2 to 4 ft. B&B... 7.50 each 5 to 6 ft. B&B... 12.00 each
4 to 5 ft. B&B... 9.00 each

Juniper, Cannart; *Juniperus virginiana cannarti*

Broadly pyramidal; medium sized, reaching 15 to 20 ft.; by pruning may be kept lower and dense; untrimmed, the growth is more or less open but pleasing; foliage deep green, heavily tufted; silvery-blue berries in late July or August.

3 to 4 ft. B&B... 6.75 each 5 to 6 ft. B&B... 10.50 each
4 to 5 ft. B&B... 8.75 each

Juniper, Henry's

This form of Virginia Juniper retains its green color all winter; forms a dense, almost columnar tree; by shearing may be grown 12 to 15 ft. high with a base of 3 ft. or less.

3 to 4 ft. B&B... 6.75 each 5 to 6 ft. B&B... 10.50

Juniper, Irish; *Juniperus communis hibernica*

Its finely-cut bluish-green foliage is attractive and its form in pleasing contrast with the globe and bush evergreens; a dense slender, conical tree with numerous upright branches closely surrounding the body; becomes about 8 ft. high and can be kept to a diameter of 18 to 24 in. by pruning.

2 to 2 1/2 ft. B&B... 3.50 each 2 1/2 to 3 ft. B&B... 5.00 each
3 to 4 ft. B&B... 5.00 each

Juniper, Keteleer's; *Juniperus virginiana Keteleeri*

A comparatively new variety of the Virginiana Juniper, with bright green foliage; of fairly rapid, upright growth and useful in sun or partial shade.

3 to 4 ft. B&B... 6.00 each
4 to 5 ft. B&B... 8.00 each
5 to 6 ft. B&B... 10.00 each

Juniper, Pathfinder; *Juniperus Scopulorum Pathfinder*

A bluish-silver type of Colorado or Scopulorum Juniper; very pyramidal habit, Arborvitae-like flat foliage.

3 to 3 1/2 ft. B&B... 6.75 each 3 1/2 to 4 ft. B&B... 7.75 each

BEAUTIFUL EVERGREENS

Dug With a Ball of Earth Wrapped in Burlap

Norway Spruce

QUALITY EVERGREENS
Every Evergreen has been transplanted to increase the root system and sheared for compactness.

Pfitzer Juniper thrives in almost every location.

Juniper Silver Moon.

Juniper, Pfitzer; *Juniperus chinensis Pfitzeriana*

Wide spreading horizontal branches forming a broad, irregular, low tree; foliage light olive-green; fine; thrives in almost every location.

| | |
|------------------------------|------------------------------|
| 15 to 18 in. B&B.. 3.50 each | 30 to 36 in. B&B.. 6.50 each |
| 18 to 24 in. B&B.. 4.50 each | 3 to 3½ ft. B&B.. 7.50 each |
| 24 to 30 in. B&B.. 5.50 each | 3½ to 4 ft. B&B.. 10.50 each |

Juniper, Pfitzer Silver

A new variety of Pfitzer with attractive bright silvery foliage, excellent for contrast. Plant patent No. 422.

| | |
|-----------------------------|-----------------------------|
| 2 to 2½ ft. B&B.. 5.50 each | 2½ to 3 ft. B&B.. 7.00 each |
|-----------------------------|-----------------------------|

Juniper, Silver Moon; *Juniperus scopulorum Silver Moon*

One of the most beautiful of the silver Junipers, the color unusually pronounced; a compact, narrowly upright variety of the Colorado Juniper; our own introduction.

| | |
|-----------------------------|-----------------------------|
| 2½ to 3 ft. B&B.. 5.00 each | 3 to 3½ ft. B&B.. 7.50 each |
| 4 to 5 ft. 10.00 each | |
| 5 to 6 ft. 15.00 each | |

Juniper, Spiny Greek; *Juniperus excelsa stricta*

Dense and narrowly conical, tapering gradually from the ground to a sharp point. Spiny grayish green, glaucous foliage. It reaches a height of about 10 ft. but grows slowly so may be used in plantings where a small tree is desired and changed to another location before it becomes too large.

| | |
|-----------------------------|-----------------------------|
| 2½ to 3 ft. B&B.. 5.00 each | 3 to 3½ ft. B&B.. 6.00 each |
|-----------------------------|-----------------------------|

Juniper, Virginia; *Juniperus virginiana*

Well known as native Red Cedar, though it is a true Juniper; foliage small, sharp-pointed, usually dark green; in autumn some trees have small blue berries, relished by the birds; fairly rapid growth; succeeds in any ordinary soil. These trees are trained conical.

| | |
|-------------------------------|-------------------------------|

| 5 to 6 ft. B&B..... 6.00 each | |

Juniper, Wintergreen; *Juniperus virginiana Wintergreen*

A horticultural variety of Virginia Juniper; broad conical habit; foliage bright yellowish-green, color well retained throughout winter in sharp contrast with many other trees.

| | |
|--------------------------------|------------------------------|
| 3 to 4 ft. B&B.... 6.75 each | 4 to 5 ft. B&B.... 8.75 each |
| 5 to 6 ft. B&B..... 10.50 each | |

Pines

A characteristic of the Pines is that the leaves or needles are in bundles of two, three or five, united at the base, and are longer than those of the Spruce which occur singly and apparently scattered all over the stem though arranged spirally. Most Pines make large trees though a few are dwarf.

Pine Austrian; *Pinus nigra*

The stout branches form a symmetrical head; needles 4 to 5 inches long. This tree is truly a specimen. Especially good as a single accent plant or in groups on large grounds. Grows 35 to 40 feet.

| | |
|------------------------------|------------------------------|
| 3 to 4 ft. B&B.... 6.50 each | 4 to 5 ft. B&B.... 7.50 each |
|------------------------------|------------------------------|

Spruce

Pine, White.

A systematical pyramidal tree with regular whorls of horizontal branches; needles in 5's, soft bluish-green.

| | |
|-------------------------------|------------------------------|
| 2 to 3 ft. B&B.... 4.00 each | 3 to 4 ft. B&B.... 5.00 each |
| 4 to 5 ft. B&B..... 7.50 each | |

Spruce, Colorado Blue.

A beautiful evergreen with frosty bluish green foliage. Especially recommended as a specimen plant. The color of Colorado Blue is not as blue as that of Moerheim Blue or Koster's, but the nearest thing to it.

| | |
|------------------------------|------------------------------|
| 2 to 2½ ft. B&B.. 10.00 each | 2½ to 3 ft. B&B.. 12.50 each |
|------------------------------|------------------------------|

Spruce, Norway

A handsome tree of symmetrical, conical habit; branches spreading, usually drooping with age; dark green needles ½-¾ in. long; beautiful reddish-brown cones.

| | |
|------------------------------|------------------------------|
| 3 to 4 ft. B&B.... 6.00 each | 4 to 5 ft. B&B.... 7.50 each |
|------------------------------|------------------------------|

Spruce, White

Similar to Norway, except it is more compact and decidedly slower growing. Can be used where medium sized tree is desired. Foliage is light green. An excellent evergreen.

Broad-Leaved Evergreens

Euonymus patens as a foundation plant.

Abelia grandiflora

White to light pink fragrant flowers like small Weigelas, from early summer till fall; small, glossy, dark evergreen leaves.

18 to 24 in. B&B... 2.25 each 2 to 3 ft. B&B... 3.00 each

Euonymus patens; Spreading *Euonymus*

A broad, compact, shapely bush with leathery, glossy vivid green leaves 2 to 3 in. long, usually retained throughout winter; greenish-white four-petaled flowers $\frac{3}{8}$ in. across in clusters 2 to 3 in. across in late July; magnificent with its scarlet-red seeds when in full fruit in late fall and early winter; suitable for sun and partial shade.

15 to 18 in. B&B... 2.00 each 18 to 24 in. B&B... 2.50 each
24 to 30 in. B&B... 3.00 each

Nandina domestica

A semi-evergreen shrub with numerous upright, reedlike stems. Each cane has a tuft of spreading light green foliage except the very young growth, which is tinted pink to copper. In August white panicles of flowers appear, followed by masses of red berries in trusses. In autumn, coppery tints cover the foliage, making it a most pleasing combination. While not entirely evergreen, it is nearly so.

18 to 24 in. B&B.... 2.75 each 24 to 30 in. B&B.... 3.75 each

Cannas Bloom June Till Frost

Plant Cannas for a profusion of large, dazzling flowers from June till frost. Their stately habit, large foliage and gaudy colors produce a rather tropical effect. Excellent as a summer screen for unsightly objects. They produce a good effect singly, in beds, small groups in the hardy border, or among shrubs.

For a circular bed take a stake and string and mark a circle 18 in. from center or 3 ft. across. Lengthen the string 18 in. for each circle. Set one plant in the center, six in the first circle, 12 in the second, 18 in the third, and so on. It requires 37 plants for a bed 9 feet across, and at least a foot all around should be allowed for growth of foliage. Plant when you plant your garden, in a sunny situation in good, rich, mellow garden soil, 18 in. apart. Not hardy; must be stored over winter.

CANNAS—continued

Parcel Post. Allow 15c per doz., 20c for 2 doz., for Missouri and adjoining states.

Austria. Large; canary-yellow dotted crimson; green foliage; grows 4 to 5 ft. high; blooms freely.

City of Portland. Deep pink; green foliage; grows 3½ ft. high.

King Humbert. Large trusses of large, bright orange-scarlet flowers; bronze foliage; blooms freely; fine; grows 4 to 5 ft.

Louisiana. Large; orange scarlet; green foliage; grows 5 ft.

President. Rich, glowing scarlet; large flowers on strong stalks; green foliage; blooms freely; grows 4 ft.; stands heat well.

Yellow King Humbert. Large; rich yellow dotted red, occasionally a scarlet or scarlet-striped flower; green foliage.

Wintzer's Colossal. Very large; vivid scarlet, its brilliance well retained; grows 5 ft.

Prices of above Cannas, 20c each, 6 for 87c, 12 for 1.68.

Dahlias for Autumn Flowers

Easily grown and give an abundance of flowers in early autumn. The decorative type have large, broad petals in rather flat heads. Special care and disbudding will increase the size of the flowers. Not hardy; must be stored over winter.

In the central and southern states the summers are too hot for good Dahlia flowers. Plant late (about May 15 here) to have them blooming during the cooler autumn days. Lay the tuber flat, the eye or sprout upward. When three pairs of leaves are formed, pinch out top pair to make them branch.

Parcel Post. For Missouri and adjoining states, add 12c for 6 or less, 2c for each additional.

Avalon. Sparkling yellow. 40c each.

Beauty Supreme. Large; coral-pink, tinged lavender; almost orchid-pink. Formal decorative. 40c each.

Blue Bird. Large; near blue color; very good. Formal decorative. Blooms freely. 50c each.

Francis Laroocca. Large light canary yellow; blooms freely; a good cut flower; formal decorative. 40c each.

Golden Eclipse. Golden yellow; center tinged buff; very large on good stems; formal decorative. 40c each.

Gallant Fox. A good red not affected by sun as badly as most reds; strong but not rank grower; good stems. 40c each.

Jersey's Beauty. Large; luminous coral pink on long stems; tall; one of the very best; formal decorative. 40c each.

Kentucky. A sport of Jersey's Beauty with more gold and salmon blended in the pink; large formal decorative. 40c.

Kentucky Sun. Clear light lemon yellow. Good grower and produces quantities of large blossoms on sturdy stems. Formal decorative. 50c each.

Mrs. I de Ver Warner. Bright lilac rose; prolific; excellent growth. Formal decorative. 40c each.

Waite's White Jersey. Large; an excellent white of the Jersey Beauty type; blooms freely. 50c each.

One-half doz. assorted 2.25; 1 doz. assorted 4.00, except Waite's White, Kentucky Sun and Blue Bird.

Privet the Living Fence

Plant 10 to 12 inches apart. Prune back to within 4 to 6 inches of the ground to make them branch low and thickly. The second spring, if not sufficiently thick, again prune back, a little higher. After that prune to keep the hedge the height and width desired, usually about three times a year. Avoid severe pruning after the middle of August.

Privet, Amur River North; *Ligustrum amurense*. A rapid growing Privet of upright habit, taking the place of California as it is reliably hardy here. Very fragrant small white flowers like tiny lilacs in late May, followed by black berries; seldom blooms when pruned as a hedge.

Gladiolus for Summer Flowers

Please Notice We Quote By Size

"Blooming size" doesn't mean much, because 1st, 2nd, 3rd, 4th and 5th size will bloom, though the smaller sizes give smaller flowers and smaller spikes than the larger sizes. First size is 1½ in. and over in diameter; 2nd size, 1¼ in.; 3rd size 1 in.; 4th size ¾ in.; 5th size ½ in.

Gladiolus, Mixed

An excellent mixture, large size bulbs, 1¼ in. in diameter, perhaps the best value for outdoor planting, as they give nice spikes of flowers. One each of 12 first class varieties, not labeled, 1.20; two each for 2.10. Postpaid in Missouri, Arkansas, Iowa, Kansas and Oklahoma. For more distant states add 5c per dozen.

LET US HELP YOU WITH YOUR LANDSCAPE PROBLEMS

We maintain a complete Landscape Service from drawing the plans to delivering and planting the plant material. Write us for particulars.

Peonies Are Easily Grown

Haven't you often wished you had all the Peonies you wanted, Peonies for the home and to divide with friends? Once established, they increase in profusion of bloom, and a few clumps will reward you each spring with beautiful, fragrant flowers of all colors, showy white, light and deep shades of pink, gorgeous reds and crimson.

Hardy as the Oak, they are easily grown. Often in old gardens one sees large clumps that have flourished and bloomed for years, yet they amply repay all attention given them. Peonies thrive in almost any good, well drained soil. Plant about 3 ft. apart. Best in full sun, they thrive with shade part of the day. The early varieties usually begin blooming in southwest Missouri about May 5th to 8th.

Peony Sizes. Prices quoted are for good strong divisions averaging three to five eyes.

Peonies by Parcel Post. Allow 11c for one plant, 1c for each additional plant, if within 150 miles of Sarcoxie (zone 2). Balance of Missouri, Kansas and Arkansas, 12c for one plant, 2c for each additional. More distant states, ask your postmaster the zone and figure 2 lbs. for one plant, 1 lb. for each additional. Any surplus will be refunded.

Crown of Gold; Couronne d'Or. Snowy-white, reflecting the golden stamens and lightening up the flower; center petals flecked and edged carmine; large; semi-rose type; fragrant; late; upright, vigorous and strong stems. 40c each, 3 for 1.10, 3.60 per 10.

Duchesse de Nemours. Superb ivory white, greenish markings toward center, becoming pure white; medium to large; crown type; fragrant; medium early; strong; vigorous; good stems; blooms freely. 40c each, 3 for 1.10, 3.60 per 10.

Duchesse d'Orleans. Large, carmine pink guards, center soft pink and salmon, becoming amber-yellow; medium to large; bomb type; fragrant; midseason; strong, vigorous; very tall; blooms freely. 35c each, 3 for 1.00, 3.00 per 10.

Duke of Wellington. Two rows of broad white guards, center very full, sulphur-white becoming pure white; fragrant; large; bomb type; late; blooms freely; vigorous; long, strong stems. 40c each, 3 for 1.10, 3.60 per 10.

Edulis superba. Beautiful bright, deep rose-pink; very fragrant; large; good form; one of the earliest; crown type; strong, vigorous; blooms freely over a long season; excellent for lawn and cut flowers; long stems. 45c each, 4.00 per 10.

Felix Crousse. Brilliant, rich, even dazzling ruby-red; large, globular, solidly and compactly built; bomb type; fragrant; midseason; growth strong; vigorous; blooms freely; fine. 75c each, 3 for 2.00, 6.50 per 10.

Festiva maxima. For enormous size and wondrous beauty it has stood unsurpassed since 1851; pure paper white, some center petals flecked purplish-carmine; early; rose type; very fragrant; vigorous; long, heavy stems. 60c each, 5.50 per 10.

Madame de Verneville. An enormous producer of fine, large, compact flowers literally packed with petals; broad white guards, center slightly blush becoming pure white, flecked carmine; delightfully fragrant; bomb type; early; vigorous; medium height; good stems. 45c each, 3.60 per 10.

PEONIES—continued

Minuet. Very large, full rose type, regular form light pink; late; strong grower and sure bloomer. \$5.00 each.

Modeste Guerin. Solferino-red, a lively, bright, very deep pink with a purplish cast; very fragrant; bomb type; midseason; upright; blooms freely; excellent. 60c each, 3 for 1.75.

Queen Emma. A very large, very full, fragrant, bright light pink rose type flower; midseason to late; blooms freely; erect habit; compact growth; stems medium long; the flowers keep and ship well. 50c each, 4.50 per 10.

Sarah Bernhardt. Apple blossom pink, the petals tipped white; compact, semi-rose type; fragrant; late midseason; tall; blooms freely. 75c each, 3 for 2.00, 6.50 per 10.

Therese. Very large, rich satiny-pink, center becoming lilac-white; compact, rose type; very fragrant; midseason; medium tall. 75c each, 3 for 1.90, 6.00 per 10.

Venus. Large to very large; hydrangea pink, crown type; decidedly fragrant; midseason; tall; blooms freely. 75c each.

Morning Splendor. Very large; fine; standards deep lavender-violet, falls rich velvety reddish-purple; delightful fragrance; midseason; 3 to 4 ft. 25c each, 3 for 60c, 10 for 1.50.

Mrs. Valerie West. Large; good substance; standards broad, bronze flushed lavender, falls deep, rich velvety red-purple; midseason; fine. 25c each, 3 for 60c, 10 for 1.50.

Nene. Immense; standards light lavender tinged pink; falls reddish to maroon; fragrant; tall. 25c each, 3 for 60c, 10 for 1.50.

Noweta. General effect a beautifully frilled soft pastel pink, slightly orchid; mild fragrance. 35c each, 3 for 95c.

Orientalis White. As the name indicates, it is a white-flowered form of Orientalis, suitable for similar uses. 25c each.

Ormohr. Very large; standards soft gray lavender veined violet, falls slightly deeper; fragrant; tall; low and well branched. 50c each, 3 for 1.45, 10 for 4.50.

Pluie d'Or (Golden Rain). A fine deep clear yellow; tall; large; blooms freely; excellent for landscape; fragrant. 25c each, 3 for 60c, 10 for 1.50.

Prairie Sunset. With a bloom of color of a midsummer sun of the prairie setting in a blaze of glory, we find ourselves unequal to the task of attempting to describe the colors of this remarkable Iris. In its tints we have pink, rose, apricot and peach with radiant sprinkling of charming gold shining forth. 1.00 each, 3 for 2.75.

Rameses. Rose-pink and buff shading to yellow near the edges; tall; blooms freely. 25c each, 3 for 60c, 10 for 1.50.

Red Dominion. Large; standards violet red; falls velvety purple red, nearly black; fragrant; stalks tall; well branched. 25c each, 3 for 60c, 10 for 1.50.

Red Douglas. Large; standards deep purplish red; falls velvety, almost black; beard golden. A rich glowing color; very fragrant. 75c each, 3 for 1.90, 10 for 6.00.

Seminole. Standards violet-red, falls velvety mahogany-red; one of the brightest reds; large; blooms freely; 2 to 2½ ft. 25c each, 3 for 60c, 10 for 1.50.

Sensation. Very large; standards sky blue; falls deeper; fragrant; tall; blooms freely. 30c each, 3.50 per doz.

Snow White. A dainty paper white; standards ruffled; light fragrance; 2½ ft. 30c each, 3 for 80c.

Wedgewood. Medium size; rich Wedgewood blue of uniform shade; fragrant; tall; blooms freely. 30c each.

Zuni. Very large; standards suntan, falls rich velvety red-purple, almost light mahogany; tall; well branched; blooms freely; one of the best of its color. 25c each, 3 for 60c, 10 for 1.50.

Keep Gay Color in Your Garden with Hardy Flowers

Much of the charm of the hardy garden lies in the pleasing changes constantly taking place. Each day during the growing season brings something to interest and delight. Before the snow is gone Snowdrops and Crocus announce the coming of spring. How eagerly we watch for the violets and bleeding heart, followed by a host of flowers—peonies, irises, sweet williams and early daisies. Then the summer flowers—late daisies, phlox, blanket flower, lilies, etc. There need not be a dull day until chrysanthemums bid farewell to autumn.

Sarcoxie Nurseries Perennials --- Are Strong Field Grown Plants

Plants vary in weight and there are eight zones. For Missouri and adjoining states allow 10c for the first and 1½c to 3c for each additional plant. Any surplus will be refunded.

These are good, strong, outdoor grown plants, not the small plants offered in low priced collections. Six or more of a kind at the dozen rate.

Anchusa, Dropmore; Summer Forget-me-not

Its large, loose clusters of flowers ½ to ¾ in. across, like Forget-me-nots, are produced freely in latter May on well branched stems 3 ft. high, a good deep, rich blue which does not fade. Remove the old flower stalks after blooming. Succeeds in sun. 30c each, 3 for 80c.

Baby's Breath, Bristol Fairy; Gypsophila Bristol Fairy

One of the best flowers for producing an airy, graceful effect in the garden or in vases of cut flowers. Dainty double white flowers ¼ inch across arranged in large, loose clusters on stems 2 to 3 feet tall in June. If dried for winter use cut before fully open and hang tips down. Thrives in sun, preferably in a limy soil. 85c each, 2 for 1.50.

Balloon-Flower; Chinese Bell-Flower; Platycodon grandiflora

So named from the odd balloon-like buds which open into five-pointed broad bell-shaped blue flowers 2½ to 3 in. across, at the tips of the branches on stems 1½ to 3 ft. tall in latter June, sometimes at intervals during summer. It should have well drained soil. 30c each, 3 for 70c, 2.50 doz.

Blanket Flower; Gaillardia grandiflora

It blooms from latter May until frost, in spite of heat, cold, wet and drouth. Flowers daisy-like, 2 to 3 in. across, maroon bordered yellow, as gaudy as a Navajo blanket, on stems 1½ to 2½ ft. tall. Prefers full sun. Very free from insects and diseases. Divide and replant every two or three years. Very effective in combination with Shasta daisies. 30c each, 3 for 70c, 2.50 per doz. See illustration next page.

Bleeding Heart

Balloon Flower →

Bleeding Heart; Dicentra spectabilis

An old-time favorite, rich in sentiment and association. Heart-shaped rosy-carmine flowers with protruding white inner petals, drooping on stems 1½ to 2 ft. high, carried well above the foliage, in latter April. Needs rich, fairly light soil. Succeeds in full sun; excellent in shade. 70c each, 3 for 1.95.

Hardy Flowers—continued

Hardy Chrysanthemums, the glory of autumn.

Hardy Chrysanthemums

In October and the dull days of November, when frosts creep into the air and the garden is nearly bare of color, these keep up the succession of beauty; prefer full sun; will stand shade part of the day; hardiness depends largely on good drainage

Alabaster. Alabaster white. Large flowers

Algonquin. A beautiful daffodil yellow.

Burgundy. Stunning wine red.

Harbor Lights. Bright yellow, white center.

Mrs. P. S. Du Pont. Pink to Autumn shades

Revellier. Bright red, very fine

Cushion Chrysanthemums

More dwarf than the above varieties and form a compact cushion shaped plant covered with so many flowers the foliage can hardly be seen. Bloom late summer to fall. Easy to grow and sure to bloom

Columbine

Coreopsis (see page 23)

Columbine, Mrs. Scott Elliott's; Aquilegia

Dainty long-spurred flowers in late April and early May; 1½-2½ ft.; mixed colors. 35c each, 3 for 80c, 3.00 per doz.

Coreopsis lanceolata grandiflora

A brilliant note of color in latter May and early June, with its golden daisy-like flowers 2 to 3 in. across on stems 1½ to 2 ft. high. Excellent planted where the yellow will contrast with Delphinium or other blue flowers. Prefers full sun; tolerates partial shade. Divide and replant every two years. 30c each, 3 for 60c, 2.25 per doz.

Daisies give a profusion of flowers.

Daisy, Edgebrook Giant; New. Truly a giant. Flower resembling Shasta, except frequently 5 to 6 inches across on heavy stems 24 inches long; everblooming. It is truly one of the best daisies. 50c each, 3 for 1.40.

Daisy, Painted; Pyrethrum. Red daisies 1½ to 2½ inches across in May on 1 to 2-ft. stems. 35c each, 3 for 80c, 3.00 per doz.

Daisy, Early Elder; Chrysanthemum maximum Early Elder

Daisies 2 to 2½ in. across, white with yellow center, borne profusely in May; stems 20 to 30 in. tall; vigorous; divide and replant each two years. 30c each, 3 for 60c, 2.25 per doz.

Daisy, Shasta Alaska; Chrysanthemum maximum Alaska

One of the best Shasta Daisies; 3 to 3½ in. across on stems 15 to 24 in. tall in latter June and early July; white with yellow center; blooms freely; divide and replant every other year. 30c each, 3 for 60c, 2.25 per doz.

Hardy Flowers—continued

Delphinium

Double Hollyhock (next page)

Regal Lilies at Sarcoxie Nurseries

Delphinium Belladonna Improved. The delightful blue of the skies; unrivalled for persistent blooming. A little larger, taller and more vigorous than common Belladonna; 2 ft. spikes. 35c each, 3 for 80c, 3.00 per doz.

Delphinium Bellamosum. A dark blue form of Belladonna. 35c each, 3 for 80c, 3.00 per doz.

Hollyhock—Double Triumph Mixed

Excellent massed against fence, buildings and at angles of walks. Beautiful fringed flowers of many new shades. 30c each, 3 for 70c, 2.50 per doz.

Showy Japanese Irises for tall borders or at the water's edge.

Iris, Japanese-Kaempferi. One of the most showy of all garden flowers. Excellent as cut flowers, for planting around pools in garden groupings. Beautiful foliage after the flowers are gone.

Gold Bound. Double white, center of gold.

Mount Hood. Double dark blue, violet shading.

Mahogany. Double dark mahogany red.

50c each, 3 for 1.40, 5.00 per doz.

Lily, Regal; Lilium Regale

A magnificent Chinese lily; white, center flushed yellow, sometimes tinged pink; outside of petals tinged purplish; delightful fragrance; easily grown; vigorous, reaching, when the bulbs become large, a height of 4 to 5 ft.; blooms freely.

4 to 5 in. around 3 for 75c, 6 for 1.35, 12 for 2.50; 5 to 6 in. around 3 for 90c, 6 for 1.75, 12 for 3.25; 6 to 7 in. around 3 for 1.10, 6 for 2.00, 12 for 3.75; 7 to 8 in. around 3 for 1.40, 6 for 2.60, 12 for 4.75.

Madonna Lilies. Pure white with yellow stamens. 45c each, 3 for 1.25, 4.80 per doz.

Tuberose, Sweet Scented

Flower spikes 30 to 36 inches tall, with very fragrant, waxy-white flowers from July to frost. 3 for 35c; 6 for 60c; 12 for 1.00.

Lily, Day; Hemerocallis

Lily-like six-pointed starry flowers in abundance in summer; very free from enemies, easily grown and, once established, a prominent addition to the garden in full sun or partial shade. Except as noted, 25c each, 3 for 60c, 1.50 per 10.

Dauntless. Deep lemon tinged orange; fragrant; large; tall. 50c each, 3 for 1.45, 10 for 4.50.

Florham. Golden to orange-yellow flowers 4½ to 5 in. across, on 4 ft. stems in summer; fragrant; half evergreen foliage.

Harvest Moon. Orange edged lemon; fragrant; large; tall; many buds. 50c each, 3 for 1.45, 10 for 4.50.

Hyperion. Canary-yellow, center a little deeper; large; fragrant; many buds; blooms profusely. 50c each, 3 for 1.45, 10 for 4.50.

Middendorffi. Rich pure orange-yellow flowers on 15 to 18 in. stems; mild fragrance; blooms freely in early summer.

Minor; Dwarf Lemon Lily. Small, delightfully fragrant, deep golden-yellow starry flowers in May and at intervals during summer. It forms dense clumps 12 to 15 in. high.

Ophir. Waxy, golden-yellow, 5 in. across and 6 in. long; fragrant; tall; many flowers. 50c each; 3 for 1.45, 10 for 4.50.

Rajah. Mahogany-red, shading to orange throat; delicate fragrance; very large; blooms profusely. One of the best of this color. 60c each, 3 for 1.75, 10 for 5.00.

Sovereign. Soft chrome-yellow, outside shaded brown.

Thunbergi. Light lemon-yellow flowers on 2 to 3 ft. stems in latter summer; delicate fragrance; often opens in the evening.

Hardy Flowers, continued

**Mallow, Giant Flowering Hibiscus**

Flowers often 6 inches across and they come along continuously from July to October. The shrub like-growth reaches 4½ to 5 ft. high. **Color, Red. 35c each, 3 for 1.00.**

Sedum; Stonecrop

Sedum spectabile Brilliant; Showy Stonecrop. The rosy-red starry flowers ½ in. across are produced freely in large flat-topped clusters on 18 in. stems in latter September and early October. Leaves light bluish-green, thick, broad, 3 in. long. **30c each, 3 for 75c.**

Sweet William; Dianthus barbatus

Gorgeous in mid-May with flat clusters of decidedly fragrant flowers on stems 12 to 20 in. high; pure white, shades of pink, red, almost black and violet, the clusters often 4 in. across with twenty to thirty florets which do not all bloom at once so they last a long time. Useful in the perennial border, rockery and last well as cut flowers. Prefer full sun. Mixed color only. **25c each, 3 for 65c, 2.50 per doz.**

Violets, Coast

One of the most showy violets in latter March, with rich purple flowers 1 to 1½ in. broad; the flower stems are as long or longer than the leaves, so the flowers are well displayed; vigorous and succeeds in full sun. **25c each, 3 for 65c.**

Violets, Sweet Russian

Everybody can grow this hardiest of violets as it is of easy culture, and of vigorous growth, soon making large clumps; fragrant, deep, rich bluish-purple flowers in March and April, often in February, and again in October and November. Good in the rockery, at the front of perennial borders, along walks, or any place a low growing plant is desired; prefers partial shade. **25c each, 3 for 60c; 2.25 per doz.**

Violets, Royal Robe

Large, open out flat like a pansy; very fragrant; fragrance detectable many yards away. Deep violet to royal purple; fine. **50c each, 3 for 1.35.**

Phlox at Sarcoxie Nurseries.

Phlox

Phlox brighten the garden just after the spring flowers are gone and before summer flowers arrive in abundance. Large heads of five-petaled, delightfully fragrant flowers on stems 1½ to 3 ft. high. Use Miss Lingard for late May and early June, and other varieties will continue the display through the first half of July. Cut the flowers as they fade and they give a second, sometimes a third crop. Masses of six or more of each color produce imposing effects. Plant 12 to 15 in. apart, 8 to 12 in. if in a single row, in rich, rather moist soil, deeply prepared. Do not allow seedling to crowd out the original plants.

Field grown plants to bloom the first summer, **30c each, 3 for 85c, 3.00 per doz., except as noted. If by parcel post add 15c per doz.**

Africa. Brilliant carmine-red with blood red eye.

Daily Sketch. Light salmon-pink, faint carmine eye; large trusses and individual flowers.

Firebrand. Brilliant cerise, vermilion and orange; of medium height; blooms freely.

July Glow. Vivid purple-red.

Lillian. Exquisite cameo-pink; large; blooms freely; early.

Mary Louise. Pure white; very large trusses and individual flowers. A good grower and prolific bloomer; medium height; perhaps the best white.

Mrs. Jenkins. Pure white; very large trusses.

P. D. Williams. Bright pink, deeper eye; large.

R. P. Struthers. One of the best; clear, bright cherry-red, darker eye; large truss, strong, slender stems; tall.

Salmon Glow. Pink shaded salmon.

San Antonio. Vivid brilliant carmine shaded prune-red.

Thor. A deep shade of salmon pink.

Fruit Trees for the Home Orchard

Cherries for Quick Results

Montmorency

Early Richmond

Cherries give quick results, often coming into bearing the fourth year. On good, well drained soil they are successful. On wet soil they are short-lived. Plant 18 to 20 feet apart. There is always a market for Cherries if you have more than you need for home use.

| Price of Cherry Trees | Each | Per 10 |
|--|------|--------|
| XXX size, 2 year, $\frac{1\frac{1}{2}}$ in. caliper up, about $3\frac{1}{2}$ to $4\frac{1}{2}$ ft..... | 1.75 | 16.50 |

Any 5 or more at the 10 rate, less at the each rate.

Early Richmond (May Cherry). Medium size but very productive; round; bright red, darker when fully ripe; very juicy, sprightly acid; latter May-June; hardy; profitable.

Montmorency. A week or ten days later than Early Richmond; rather large; dark rich red; juicy, pleasant acid; excellent quality; vigorous; hardy; productive; succeeds everywhere.

Plum Trees

Easily grown; bear in spite of neglect, yet respond liberally to good care. Plant 20 to 24 feet apart.

| Prices of Plum Trees | Each | Per 10 |
|---|------|--------|
| XX size, $\frac{1\frac{1}{2}}$ in. caliper up, about 5 to 6 ft..... | 1.75 | 16.50 |

Any 5 or more at the 10 rate, less at the each rate.

America. Large; yellow with red cheek; juicy; cling; hardy; productive; bears young; one of the most reliable.

Omaha. Large, red with slight yellow cheek; firm; semi-cling; moderately productive; early August; upright growth.

Opata. Bears young and very freely; dark purplish-red with blue bloom; flesh green, firm, sprightly acid; medium size; ripens in July; good for canning, the skin becoming tender when cooked. We think this is the best of the Hansen hybrids.

Sapa. Early; rich dark purple-red skin, flesh and juice; medium to medium large; bears very young; very hardy.

Apricots

Superb. Large; orange-yellow; good quality; ripens between cherries and peaches.

| Prices of Apricots | Each | Per 10 |
|--|------|--------|
| Standard size, $\frac{7}{8}$ to $\frac{1}{2}$ in. caliper, about 3 to $3\frac{1}{2}$ ft..... | 1.75 | 16.00 |

Nectarine

Nectarine, Surecrop, $\frac{1\frac{1}{2}}$ in. caliper..... 1.25 each

Peach Trees

◆ At reduced Diamond Jubilee prices. ◆

Peaches come into bearing younger than any other tree fruit, under favorable conditions giving a crop the third year and yields are larger as the trees grow older. A few trees won't cost as much as you probably pay for peaches in one year, and none are so delicious as those freshly picked when ripened on the tree. To the man who has room for a commercial orchard, and will cultivate, prune and take care of the trees, peaches offer great opportunities for good profits. A sandy loam or gravelly soil is best, but the peach adapts itself to almost any well drained soil. Sometimes they are planted 18x18, but 25x25, requiring 75 trees per acre, is better.

| Prices of Peach | Each | 5 at | 25 at |
|---|------|------|-------|
| XX size, $\frac{1\frac{1}{2}}$ in. caliper up, about 5 to 6 ft..... | 1.00 | .90 | .80 |
| Standard size, $\frac{7}{8}$ to $\frac{1}{2}$ in. caliper, about $3\frac{1}{2}$ to $4\frac{1}{2}$ ft..... | .85 | .80 | .70 |

Any 5 at the 5 rate.

Belle of Georgia. Very large; white, red cheek; flesh white, fine texture, firm, juicy, rich, high quality; freestone; early August; vigorous, hardy, very productive.

Champion. Large; white, beautiful red cheek; freestone; flesh white, sweet, juicy, rich, delicious; early August; one of the hardiest peaches; vigorous, productive.

Elberta. Very large; golden yellow with a crimson cheek; freestone; flesh rich yellow, firm, juicy, good; mid-August; vigorous, productive; excellent for shipping.

Golden Jubilee. Yellow freestone; ripens ahead of Elberta; good size and quality; desirable for home and market.

Hale Haven. Large; yellow freestone with red cheek; high quality; ripens about ten days or two weeks ahead of Elberta; productive.

J. H. Hale. Large; yellow with red cheek; fine grained; a little earlier than Elberta and more round in shape. An excellent table peach; one of the largest.

Mikado. Yellow with red cheek; semi-freestone, excellent quality; ideal locker and freezer variety.

Polly. On of the finest white peaches. Large, blushed freestone; ripens just before Elberta. A heavy producer and highly recommended for the North. Of exceptionally fine flavor and stays firm when canned.

Victor's Early. A very early white freestone. If you enjoy having fruit early, this is the variety you need. A very highly colored fruit, producing ten days to two weeks in advance of many varieties.

Pear Trees, Standard

The quality is improved if gathered when full size and beginning to color but yet firm and ripened in a cool dark room.

| Price of Pears | Each | Per 10 |
|---|------|--------|
| X size, 2 year, $\frac{3}{8}$ in. caliper, about 4 to 5 feet..... | 1.50 | 13.50 |

Any 5 or more at 10 rate.

Bartlett. Large, waxy yellow with red blush; juicy, fine grained, rich, good quality; latter August; bears young.

Douglas. Golden yellow, flushed with pink, tender, juicy, excellent flavor; resistant to blight; bears young.

Lincoln. Large, yellow, quality good; resistant to blight; bears young; very hardy.

Apple Trees

At reduced Diamond Jubilee prices.

| Prices of 2-year Apple | Each | 5 at | 25 at |
|--|------|------|-------|
| XX size, $\frac{1}{2}$ in. caliper up, about 5 to 6 ft..... | .95 | .90 | .85 |
| Standard size, $\frac{1}{2}$ to $\frac{3}{4}$ in. caliper, about $3\frac{1}{2}$ to $4\frac{1}{2}$ ft..... | .80 | .75 | .70 |

Any 5 or more at the 5 rate.

Grimes Golden. Beautiful yellow; fine quality; Oct.-Dec.

King David. Jonathan-Winesap cross; dark wine red.

Red Stayman Winesap. Deeper red than the old Stayman; firm, juicy, subacid; good; keeps late; bears young.

Maiden Blush. A large, clear yellow autumn apple.

Red Delicious. Colors early and is red almost all over.

Red Jonathan. Deep red; fine quality; October and later.

Red Stayman. Deeper red than Winesap; fine grained.

Winesap. Bright deep red; flesh yellow; very rich, firm; very juicy; sprightly subacid; very good; winter.

Yellow Delicious. Large; golden yellow; late winter; excellent.

Yellow Transparent. Yellowish-white; fine grained; juicy; sprightly subacid; mid-June; hardy; very young, abundant bearer.

6 in 1 Apple Tree Six Different Apples on One Tree

Six best, most popular varieties on one tree—Yellow Transparent, Wealthy, Yellow Delicious, Red Delicious, Red Jonathan and Winesap. An orchard on one tree. 2 yr. trees, 4 to 6 ft. tall..... 3.00 each

Grape Vines

Concord. Large; the most popular black grape; juicy; sweet; hardy; productive; vigorous; mid to late August.

Fredonia. Black; bunch and berries large; good flavor; productive; early; has given good results in Missouri.

Moore Early. Black; large; valued for size, hardiness; productivity and season, about 2 weeks before Concord.

Niagara. Greenish-white to pale yellow; sweet; productive.

| Prices of Grapes | Each | 5 at | 25 at | 50 at |
|-------------------------------|------|------|-------|-------|
| Concord, 2 yr. No. 1..... | .30 | .25 | .22 | .20 |
| Fredonia, 2 yr. No. 1..... | .35 | .30 | .28 | .25 |
| Moore Early, 2 yr. No. 1..... | .35 | .32 | .30 | .28 |
| Niagara, 2 yr. No. 1..... | .35 | .32 | .30 | .28 |

Gooseberries

Easily grown and readily respond to a little care. Plant 3x5 or 4x5 ft. A northern slope or slight shade is best.

Houghton. The best for most sections; medium size but a profuse bearer; resistant to rust; pale dull red when ripe, usually picked green. 2 year No. 1, 50c each, 3 at 45c each.

Blackberries

Blackberries begin bearing the second year and under suitable conditions may be depended upon for regular, profitable crops. A strong, deep loam that will retain moisture, tending toward clay rather than sand, is best. If properly tended they may be planted 2x6 ft., 3,600 per acre.

Early Harvest. Medium size but juicy, sweet; valuable for extreme earliness, hardiness and productivity; firm, ships well, 1.25 per 10, 2.75 per 25, 50 or more at 9.50 per 100.

Eldorado. Medium to large; oblong-conical; jet black; sweet; midseason; hardy; vigorous; productive. 1.25 per 10, 2.75 per 25, 50 or more at 9.50 per 100.

Raspberries

Ripen between strawberries and blackberries, begin bearing the second year, increase as they become established, and bear regularly under proper conditions. Should have a deep soil with plenty of humus that retains moisture during a dry year.

Cumberland. Black. See prices, back cover.

Latham. Large; attractive brilliant red; good quality; productive. 1.40 per 10, 3.00 per 25, 50 or more at 11.00 per 100.

Currants for Jelly

If you like home-made jelly, plant Currants, 3x4 ft. In the Central States they should have partial shade or a northern slope. Red. 2 yr. No. 1 45c each, 3 for 1.20.

Asparagus

Mary Washington and Paradise. Both rust resistant varieties. 70c per doz., 1.25 per 25, 4.00 per 100.

Rhubarb or Pie Plant

Large, tender, delicately flavored stalks; productive. 30c each, 3 for 60c, 1.90 per dozen.

FRENCH HYBRID LILACS

CUMBERLAND RASPBERRIES

BERRY PLANTS

THORNLESS
BOYSENBERRY

FROM SARCOXIE NURSERIES

are easy to grow, and produce large yields on a small area. Enjoy the pleasure of picking all the full ripe fruit you want from your own garden.

RASPBERRIES

Cumberland. One of the best black-caps; large, firm, of excellent quality. Early to midseason; hardy, vigorous, productive. Plant 4 x 7 ft. **\$1.25 for 10, \$2.50 for 25, 50 or more at \$9.50 per 100.**

Latham. Large; attractive brilliant red. Good quality; productive. **\$1.40 for 10, \$3.00 for 25, 50 or more at \$11.00 per 100.**

THORNLESS BOYSENBERRY

No new fruit has caused such a sensation. Imagine a cross combining the delicious flavors of loganberry, blackberry, and raspberry. You get just that in this new fruit. So large that only a few berries are required to fill a pint. Fruit 1½ to 2 inches long, wine-red in color. Bears good crop the second year. **3 for 90c, 10 for \$1.50, 25 for \$3.00, 50 or more at \$11.50 per 100.**

STRAWBERRIES

Strawberry plants are grown under irrigation at Sarcoxie

No other fruit gives such quick results as Strawberries. Planted one spring, they give a full crop the next, and with proper care a patch lasts several years. Plant 2 ft. apart in the row, the rows 3½ to 4 ft. apart; planted 2 x 4 ft. requires 5,400 per acre. These plants are well rooted, properly cleaned and carefully packed. All varieties listed are perfect flowered and will bear alone.

Aroma. A heavy bearer and the leading commercial variety in this section. Very large, conical; glossy deep red. Firm; ships well; begins midseason and continues late.

Blakemore. Originated by the United States Department of Agriculture. Bright light red; medium size and good quality. Firm; ships and keeps well; valuable commercially. Jells easily; early. Grown from yellow-free plants.

Brune's Marvel. A new everbearing variety from the North. Fruit medium size, rather long. Extra good quality and prolific.

Giant Gem. Large; attractive light red; tart, but a flavor usually well liked. Productive; everbearing.

Premier. Early; attractive color, good size and quality. Productive.

Sen. Dunlap. Dark glossy red, resembling Warfield and of the same rich, juicy flavor; medium size. Midseason; bears heavily and ships well; succeeds almost everywhere.

Streamliner. A new everbearer highly acclaimed in all sections of the country.
